On September 28, 2018, the Department of Justice and the State of California's Department of Toxic Substances Control ("DTSC") filed a complaint and lodged a proposed Consent Decree with the United States District Court for the Eastern District of California ("Court") pertaining to environmental soil, solid waste, and soil gas contamination at Operable Unit 2 ("OU2") of the Laboratory for Energy-Related Health Research/Old Campus Landfill Superfund Site ("Site") in Solano County, California. The complaint and proposed Consent Decree were filed contemporaneously in the matter of *United States of America and the California Department of Toxic Substances Control vs. Regents of the University of California*, Civil Action No. 2:18-cv-02651 (E.D. The Consent Decree requires the settling defendant, the Regents of the University of California, to perform cleanup of soil, solid waste, and soil gas contamination at OU2, and to reimburse the United States' and DTSC's related oversight costs on an ongoing basis.
